Ladies and Gentlemen:

Fish, Wildlife and Parks has proposed to acquire a Fishing Access Site (FAS) near Bridger, Montana. An Environmental Assessment (EA) was prepared, the public was given notice, and the document was distributed.

One comment was received from the State Historic Preservation Office recommending that a cultural resource inventor survey be conducted prior to ground-disturbing activities at the site. A survey will be conducted.

The Department has decided to proceed with acquiring the Bridger FAS as evaluated in the draft EA. This decision was made October 1, 1996.

Sincerely,

  
Richard Ellis  
Regional Supervisor
